This Music Therapy Bibliography for Hospice Palliative Care cites selected references most easily accessed in the literature that are of relevance for the care of adults and children. Grey literature (e.g., PhD theses/dissertations, Masters theses, book chapters, and conference proceedings) is not included.

Krout, R. E. (2001). The effects of single-session music therapy interventions on observed and self-reported levels of pain control, physical comfort, and relaxation of hospice patients. *American Journal of Hospice and Palliative Care, 18*(6), 383-390.
